**REDS THREATEN GEORGE HARVEY; SEEK LEADERS**

Police of Four European Nations Attempt to Break Up Plot.

**WOMAN INVOLVED**

Perpetrators of Attempt On Life of Herrick Still At Large.

Paris, Oct. 21.—The police of four European nations were desperately engaged today in running down the ring leaders of the great international terrorist plot against the lives of American diplomatic officials in Europe.

Following the attempt to assassinate Myron T. Herrick ambassador to France, and the hostile demonstrations against the American diplomats in Rome and Brussels, it was revealed today that communists in England have threatened George Harvey, the American ambassador to Britain.

Perpetrators of the bomb plot against the life of Ambassador Herrick were still at large this morning but the police have unearthed additional clues. The police prefecture now believes a woman was involved in the conspiracy against Mr. Herrick. The address on the package in which the bomb was sent to the American embassy was written in a feminine hand.

The police are actively searching for communist friends of Nicolo Sacco and Bartolomeo Vanzetti, the two Italians whose conviction for murder in Massachusetts inspired the communist anti-American activities in Europe. It is reported several friends of Sacco and Vanzetti arrived in Paris a few days ago and they are believed to be in communication with the leaders of the French wing of the communist party.

Special police precautions are being taken to prevent an outbreak. Double cordons will guard the United States embassy.

**BONDS TO AMOUNT OF \$43,000 SAID TO BE TAKEN OUT**

Evansville, Ind., Oct. 21.—Liberty bonds worth \$43,000 have disappeared from the Farmers' Bank at Newburg, Ind., ten miles east of here, where the securities had been left by patrons of the bank.

This was disclosed yesterday by an examination of the bank's affairs, according to a statement by C. W. Camp, State Bank Examiner.

No word has been received from A. H. Hulversen, cashier of the bank, who was reported to have disappeared.

The bank has been closed since Monday and Mr. Camp said that his petition for the appointment of a receiver would come before the Circuit Court at Booneville next Thursday.

No statement of the bank's condition was made public by the examiner.

(Dispatches direct from Lisbon today make no mention of the city being bombarded.)

Lisbon, Oct. 21.—The new Portuguese revolutionary government dissolved parliament today. A decree was issued promising the following reforms:

**CARUSO MEMORIAL CANDLE WILL BURN FOR 5,000 YEARS**

Anthony Ajello, of New York, is shown working on the Caruso Memorial Candle, which will burn 5,000 years. The candle will be eighteen feet in height and five feet in diameter completed and will be set up in the Church of the Madonna, at Pompeii, Italy. It will burn only one day a year, on All Souls' Day—that's the reason it will last five thousand years. It allowed to burn continuously it would last 120,000 hours, or approximately thirteen years and seven months.

**URGES PROPERTY OWNERS DEFRAY COST OF WORKS**

Columbus, Oct. 21.—That a law be passed permitting assessment of the entire cost of an improvement upon the property owners benefiting by it, is a recommendation made by Morris A. Black, Cleveland, president of the Ohio State conference on city planning in session here.

President Black recommended, also, that state parks be established along the Muskingum valley and other southeastern parts of the state. Speakers included Ernest B. Goodrich, of the technical advisory corporation, New York; Prof. F. H. Eno, of the Ohio state university; Frank L. Packard, Columbus architect; Attorney Alfred Bettman, Cincinnati; Edwin Baxter, Vice president of the Cleveland Trust Company; Colonel Edward Orton, Jr., president of the Columbus chamber of commerce; Adam H. **Pershing Starts Home**

Paris, October 21.—General John J. Pershing, who came to Europe to place the Congressional Medal of Honor upon the tombs of the French and British "unknown warriors," left Paris for Cherbourg yesterday on his way to the United States.

He was accompanied to the station by a representative of President Millerand, several members of the Cabinet and many prominent military and civil officials.

General Pershing told the Minister of War that his trip to France had been one of the happiest events of his life and that he hoped to be able to return in two or three years.

**PEACE PARLEY STRIKES' SNAG OVER QUESTION**

Independence For Ireland Again Stumbling Block in Conference.

**REACH DEADLOCK**

Devalera's Telegram to Pope Described as "Bombshell" in Officialdom

London, Oct. 21.—The Irish peace conference again swept perilously near to the reefs today. When the parley was renewed at noon, after a recess of three days, it was learned a deadlock has been reached in some of the committees that are working out details. Two developments had occurred during the recess to offset the progress previously made:

1.—Formal declaration by the unionist government of Ulster that Ulster will not consent to a single Irish parliament which will give the Sinn Fein domination of all Ireland.

2.—Eamonn Devalera's message to Pope Benedict stating the Sinn Fein is determined upon Irish independence.

Devalera's telegram was described as a "bombshell." An official who is in touch with the inner circles told the I. N. S. negotiations appeared to be on the verge of a break, but that British officials were hopeful the obstacles would be overcome.

It was learned that Premier Lloyd George would use as an argument the resolution drawn up by 35 rebellious unionist members of parliament expressing grave apprehension over "negotiations with delegates who have repudiated the crown and are under oath to establish a republic."

**RE-DISTRICTING OF OHIO SENATORIAL DISTRICTS POPULAR**

Columbus, Oct. 21.—Leaders of each of the dominant parties in Ohio and the press, regardless of party affiliation are supporting the proposed constitutional amendment providing for a re-districting of the Ohio Senatorial Districts. This proposed legislation has been worked out scientifically, rather than politically and it is the almost unanimous action of the legislature, where men spent weeks framing the proposal which will be voted on by the electorate at the election next month.

This redistricting plan is of equal interest to the city and country. Under the constitution at present, it provides that when districts have not the required population, they are to be merged with adjoining districts. That means that districts would be combined under the constitution and there would be but one representative in the senate for five or six counties in many instances. In fact this prevails at the present time in senate representation. Unless the proposed amendment carries it means that in the future three or four populous districts of the state will soon control the Ohio senate.

The proposed redistricting plan is not partisan and is not sectional. It has been pronounced fair by men of all parties and by the newspapers generally. It is rather a systematic redistricting and the representatives of agriculture and industry have wrought it out with the idea of conserving the best interests of the state at large.

In addition to the above reasons for the support of this amendment, there are others which ought to appeal to every voter in Ohio. In framing the redistricting resolution, the counties were so grouped that the interests of the communities are taken into consideration. Agricultural communities are grouped together and industrial communities are placed in districts where their interests are in common.

**ACCEPTS ORDER**

Cleveland, Oct. 21.—"We'll be glad to meet the labor board and railway executives in Chicago next Wednesday or at any other time," said W. S. Stone, grand chief of the Brotherhood of Locomotive Engineers, when informed that the railway labor board had summoned executives and labor union leaders to a conference.

"I do not know what proposals they will have to make, but what ever they are, we will be glad to consider them."

Senator Crow is a lawyer, fifty-one years old, and has been a member of the Pennsylvania State Senate since 1907.

**ESTABLISHMENT OF NEW PEACE WITH GERMANY NEAR**

Washington, Oct. 21.—Formal restoration of peace between the United States and Germany awaits the exchange in Berlin of the ratification papers and will occur soon. The official evidence that the treaty has been made, signed by President Harding and for deposit in German archives, is in course of preparation and will be forwarded as soon as completed.

Re-establishment of diplomatic relations and the working out of a supplemental commercial treaty will follow the exchange of ratifications. It was indicated yesterday that the treaty approved by the senate contained about all commercial provisions it had occurred to American authorities as desirable.

There are certain reciprocal agreements as to German interests in the United States, however which the German government is anxious to have written into a commercial pact, and it is expected this will be taken up through regular diplomatic channels.

No indication was available yesterday as to when it might be decided to withdraw American forces on the Rhine, or to reduce the strength of the command. There are now some 13,000 men in Major General Allen's command.

It is regarded as improbable that the American force will be withdrawn as a unit. No plans for mobilization of transports for the homeward journey have been considered by the war department.

**YOUTHS GET AWAY AFTER LOOTING BANK**

Kendallville, Ind., October 21.—Officials are scouring this section of the country for five youthful bandits who held up the Farmers' State Bank at Wawaka, 12 miles west of here yesterday afternoon, escaping in an automobile with \$2,000 in currency.

After ordering Fred Schwab, Assistant Cashier, to open the safe, one of the bandits hit him on the head. Charles Schwab, cashier, was first to report the hold-up, and ran to his home, adjoining the bank, and armed himself with a shotgun.

Armed citizens across the street opened fire on the bandits, who escaped in a fusillade of shots. The bandits returned the fire, but their shots went astray. A bag of \$700 in gold and several thousand dollars in Liberty bonds were overlooked by the bandits.

**DRY AGENT OUT**

Cleveland, Oct. 21.—Fred B. Counts, federal prohibition commissioner for the Cleveland district, is to be removed from office within two weeks, J. E. Russell, federal prohibition director for Ohio, stated here yesterday. His successor has been selected, but his identity will not be made known until he is formally appointed.

Other changes will be made in the local office, Russell said, which will change almost the entire personnel. Mr. Russell would not say why Counts is being removed. Asked if it was for political reasons, he said: "Well, I didn't see any Republicans in office during President Wilson's administration." He refused to comment further.

**NEXT MOVE TOWARD SETTLEMENT UP TO WASHINGTON ADMINISTRATION**

**REACH IMPASSE IN RAIL CRISIS AS BOARD FAILS**

Conference Between Union Leaders and Labor Board Fails.

**PLANS ARE REFUSED**

One More Parley Has Been Arranged to Solve Trouble.

Chicago, Oct. 21.—The U. S. Railroad Labor Board this afternoon took the initiative in another move to avert the threatened railroad strike when it summoned here for a conference next Wednesday both the executives of the railroads and the leaders of the unions. Decision to call this conference was announced after a meeting of the board this morning.

The board will require the brotherhood chiefs, it was announced to show cause why they should not be punished for violating the wage cut decision by calling a strike in protest against it.

If the edict of the board that the status of the roads remain unchanged is obeyed it will postpone the strike until the case has been thoroughly threshed out and the question of the legality or illegality of the brotherhoods action in calling a strike is definitely settled.

Chicago, Oct. 21.—The next move for peace in the railroad situation is up to Washington.

Through the I. C. C. an attempt will be made to obtain a declaration from the railroads promising to press for no more wage reductions for the present and to adjust working rules, it was learned today from authoritative sources.

The administration is preparing to prevent the strike through proceedings in the U. S. courts in event all mediative efforts fail, it was learned.

The chiefs of the "big four" brotherhoods and T. C. Cassen, president of the switchmen's union of North America, will within the next few days be cited before the railroad labor board to answer at a public hearing to the charges of violating the Cummins-Esch transportation act by calling a strike, according to the present program.

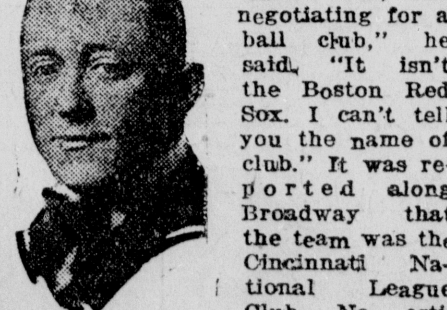

That the administration is determined to prevent the strike through the courts if necessary was learned officially today.

Under the program at present contemplated either the United States labor board itself or some other government agency will seek a restraining order to prevent the strike. The proceedings would test the constitutionality and power of the board.

Another plan, it was learned, is to institute court proceedings against the brotherhoods through members of their own organizations. Whether this would be a friendly arrangement between the board and the brotherhoods to test the former's authority could not be ascertained. Labor officials said today that in every organization there are dissatisfied members who would lend themselves to such proceedings.

**WIZARD OF STAGE WANTS TO BECOME BASEBALL MAGNATE**

Having retired from the theatrical business on this side of the ocean at least, George M. Cohan, is about to become the owner of a big league baseball team. "Yes, I'm negotiating for a ball club," he said. "It isn't the Boston Red Sox. I can't tell you the name of club." It was reported along Broadway that the team was the Cincinnati National League Club. No estimate could be placed on the price that might be paid for the club by Cohan who is reputed to have a personal fortune well above the million mark. It was said on good authority however, that the value of any major league club nowadays could be placed at more than \$500,000. Cohan always has been noted as an ardent baseball fan. In his younger days he showed considerable skill as an amateur pitcher, and recently started a movement to promote ball teams among theatrical performers.

**STRIKE WILL GO ON SAY CHIEFS**

Cleveland, Oct. 21.—"The strike will go on." This is the view expressed this morning by heads of three of the five railroad brotherhoods involved in the proposed nation wide strike scheduled to begin on Oct. 30, upon their return from an abortive conference with the railway labor board in Chicago.

The three executives of the unions already on the ground will be joined here tomorrow by L. E. Sheppard, president of the Order of Railway Conductors who will remove his headquarters temporarily from Cedar Rapids, Ia. T. C. Cassen, president of the switchmen's union, with his office and field staff is expected to arrive in Cleveland before Monday when a general conference of the leaders will be held it was announced today.

**GOVERNMENT STILL OPTIMISTIC OVER STRIKE SITUATION**

Belief Continues That Threatened Walkout Will Be Called Off.

Washington, Oct. 21.—Although President Harding and his cabinet today discussed the railroad strike situation members refused to state whether any action had been decided upon and declared that the president had sole authority to disclose the government's hand.

Possibility of the railroad labor board officially citing the brotherhoods for violation of the board's decisions, thus placing the brotherhoods face to face with the law, was discussed in the cabinet session, it was said.

The cabinet discussed the use of the national defense act as a measure of protection if a strike is called it was learned. Legal opinions submitted to the president held that until peace with Germany is actually proclaimed the president would have too power to take over the railroads and operate them under the national defense act. The president is said, announced his intention of not resorting to such drastic measures unless absolutely necessary.

Washington, Oct. 21.—Despite the failure of the railroad labor board to secure promises from the chiefs of the "big four" transportation brotherhoods for the withdrawal of orders for a nation wide railroad strike, there was a distinct atmosphere of optimism still prevailing in official circles today. Members of President Harding's cabinet were to assemble early at the White House to discuss the situation.

The president may call a joint conference of railroad executives and labor leaders if other means cannot be found to avert the threatened walk out, but the belief continues here that the strike will be called off with out direct action on the part of the government.

Capitulation of the brotherhood chiefs, it was pointed out, could not be expected until they had played every card which they hold, in an effort to force the assurance from railroad heads that further wage decreases would not be insisted upon before the labor board.

The plan of secretary of Commerce Hoover to coordinate the use of motor trucks throughout the country to replace rail transportation was perfected and the assurance was given that operations could, if necessary be started at a moment's notice.

Postmaster General Hays has made what he believes are air tight arrangements for moving the mails should the strike go into effect.

**BRITAIN PLANS TO WIPE OUT DEBTS OWED HER SOON**

London, Oct. 21.—Great Britain is planning a great spectacular move on the very eve of the Washington disarmament conference toward cancellation of allied debts.

The International News Service was informed by a high British authority today that Great Britain is considering a definite plan to wipe out all debts owed her by the allied nations.

GIRL IS BURNED  
Newark, Oct. 21.—Irene Webber, a pretty 17-year-old girl was burned to death at a late hour last night. Her clothing caught fire from an open grate.

**U. S. COURTS TO BE LAST RESORT TO STOP STRIKE**

Government to Urge Rails Not to Insist On Wage Cuts.

**CHIEFS TO BE CALLED**

Will Seek Restraining Order to Prevent Walkout.

Chicago, Oct. 21.—Preparations for the biggest railroad strike in the history of the United States were going forward today as a result of the failure of the conference here between the chiefs of the big railway brotherhoods and the United States railway labor board to reach an agreement. No further parleys have been arranged, and unless a new move toward settlement comes within the next nine days the walkout set for October 30, will take place.

Both union leaders and railway executives here today frankly admitted that an impasse had been reached. It was generally conceded that the next move toward a settlement must come from the federal government at Washington. Members of the labor board, while declining to make statements admitted the conference which they had hoped would accomplish much had been barren of result. They announced that the board had no further plan in mind.

The heads of the "big five" brotherhoods, as they have come to be known since the union of the switchmen with the trainmen, conductors, engineers and firemen either had left Chicago today or were preparing to leave for Cleveland where plans for fighting the battle that looms when the walkout comes will be prepared.

"We stand pat," and "the strike will proceed," were their parting declarations.

The attempt of the labor board to adjust the controversy ended in failure when the heads of the Brotherhoods, after several hours of conferences, walked out of the parley, asserting, that the proposals submitted by the board were impossible of acceptance.

The proposal of the labor board, which has rejected, contemplated postponement of the strike, deferring of the request of railroads for further wage reductions and reductions of freight rates to absorb the wage cuts that became effective July 1.

It was contention of the union leaders that the strike could not be postponed. Nothing short of a full settlement they said, could avert the strike.

Railway executives of the western lines were to meet today to discuss plans for combating the strike. Samuel Felton, president of the Chicago and Great Western declared that "things look bad." Hale Holden, of the Chicago, Burlington and Quincy declared that "the situation certainly was not improved any."

Beyond announcing that the adjournment of the conference was "final" and that "we cannot say that any beneficial results were obtained," members of the labor board made no statement.

Railway unions separate from the "big four" brotherhoods, including those that are affiliated with the American Federation of Labor, continued the various conferences that have been in progress during the present week. The policy of the federation unions has not been definitely formulated but will be threshed out at these meetings.

The brotherhood chiefs, it is understood informed the labor board that though the 12 1/2 per cent wage cut of last July was the technical reason for calling the strike, a more important one was the disturbance of working rules by the railroads.

The board according to official sources, issued warning to the brotherhood leaders that they were acting in violation of the Cummins-Esch law that they would not have public sentiment if they carried through their strike program and advised them to go back and tell their men to act circumspectly because of the serious consequences involved.

## Greene Connty Court News

## Charges Husband With Cruelty

Edna Compton charges Ralph Compton with extreme cruelty and cites specified instances in her suit for divorce and alimony filed with Clerk of Courts Elam Thursday afternoon.

The plaintiff claims that for the last several years the defendant has been guilty of extreme cruelty, assaulted and beat her, October 2, 1921, struck her on the head with his fist and had to be taken before the police.

She claims in her second cause for action that for the last five years, and especially within the last few months, the defendant has cursed and abused her in the presence of their child, frightened the child, threatened to injure the plaintiff and the child and that she cannot safely live with him longer. The petition charges further that he stays out late at night, sometimes until five o'clock in the morning, gambles and plays poker and has lost all affection for his family.

The petition states that the plaintiff and defendant jointly own property on the west side of South Detroit street, for which they paid \$5,900 and which is encumbered by a first mortgage lien with the People's Building & Savings Company, a second with J. A. North, and a third with Charles Holland. The defendant, the petition states, earns \$100 a month and would be able to support his family except for squandering his money and only pays the plaintiff from \$4 to \$7 a week, after an order from Police Judge. The plaintiff claims she owns practically all of the household goods, having been given her by her aunt. She asks for a temporary restraining order restraining the defendant from interfering with the plaintiff or their child, temporary alimony and attorney fees, divorce, custody of the child, the household goods, and alimony. The Comptons were married January 28, 1910, have one child, Jean, aged four and one-half years. Marcus Shoup is attorney for the plaintiff.

The defendant in her answer denies all of the allegations in the plaintiff's petition and in her cross petition says that the plaintiff is guilty of extreme cruelty in that he is overbearing, domineering, high tempered, flatters himself as a "ladies' man," tells of his experiences with other women says that certain women are better looking than she, causing her anguish and suffering and that he cursed and struck her when she asked him about a note written by another woman. She charges that the plaintiff left her with her father, and admitted that he had been with other women, and accused her of driving him to do it. She says she has been faithful and dutiful wife and asks for divorce, custody of the children, Martha and Alfred, an allowance while the case is pending and reasonable attorney fees.

**Asks Damages for Auto Crash.**  
John E. Kohl of this city, claims damages amounting to \$297.25 in his action filed with Clerk of Courts Elam Thursday, against The Zim Zim Bottling Company of Springfield.

The plaintiff claims that October 11, 1921, as he was driving his Cadillac touring car on the Clifton and Springfield pike, in Clark county, going south, that he was struck by a truck owned by the defendant company and was driven by a man in their employ named Bissey. The plaintiff says he was traveling between 15 and 18 miles an hour, and had given more than half the road, but the truck, which was traveling from ten to 15 miles an hour, had an ineffectual brake, and was using more than half the road, striking the plaintiff's automobile and damaging it to the extent named. He asks for the amount with six per cent interest from October 11, 1921. M. Shoup is attorney for the plaintiff.

**Suit For Divorce Entered.**

The transfer was confirmed on the condition that the college pay the annuity during her life time and eliminate the expense of the executor. The executor, William Conley, was therefore ordered to transfer the balance of \$7,150 to the trustees of Cedarville College.

## Social and Personal

### ROTARIANS ARE HOSTS TO FRIENDS.

Acting as hosts to their wives and friends, Xenia Rotarians gave one of the most enjoyable of the season's affairs, at the Elks' Club, Thursday night. The event was the first that the Rotarians have given outside their membership, and the clubmen took advantage of the season to add a touch of novelty and interest to the event.

It was a Halloween party, with corn fodder, pumpkin lanterns and autumn leaves combining in attractive decorations. A huge shock of corn reaching almost to the ceiling, centered the room, and partially concealed within it, a keg of cider, on tap throughout the evening, furnished refreshment for the guests. Apples and doughnuts were also provided throughout the evening. Later pumpkin pie, doughnuts and coffee were served.

Cards and dancing were enjoyed, and a musical program was presented during the evening. Mrs. Mary M. Meredith and Miss Emma Davidson presented two vocal duets, with a piano accompaniment by Mrs. Robert A. Kelly. Miss Catharine Shoup sang a number from "The Rainbow Girl," the musical show in which Miss Shoup starred for a season. Paul Dye, of Urbana, sang a solo, and also appeared in a duet with Miss Shoup, singing "The Love Nest" from the opera "Mary." Mr. Dye was the Democratic candidate for congress in this district last year.

The entertainers were introduced by James E. Kelly.

Music for the dancing was furnished by Brownies' Orchestra, a group of colored musicians from Dayton. One of the musicians, playing a banjo put on a little dancing skit of his own as the orchestra played. His impromptu performance several times attracted the dancers so that they stopped their fascinating pastime in order to group about and watch his antics.

About one hundred people enjoyed the evening.

Mrs. Lleurance has been assistant to the postmaster at Jamestown for the last four years, having received the appointment when her father was postmaster. ## COLUMBUS FIRM AWARDED CONTRACT FOR REMOVAL OF 200 FRAME BUILDINGS FROM OSBORN TO NEW SITE OF TOWN

The Sheeler and Son Company, of Columbus and Chicago was awarded the contract for the removal of 200 frame buildings from Osborn to that village's new site, by the Osborn Removal Company Thursday night.

The estimate cost of the removal work is \$125,000 and, according to the contract the work is to be started not later than June 1, 1922 and is to be completed by October 1, 1923.

Only preliminary removal work will be done this winter, but in the meantime, engineers are grading streets and preparing for the rebuilding of the village. The removal Company, in drawing up the contract, reserved the right to order the work started as soon before June 1, 1922 as considered advisable which means that favorable weather in the spring may see the work get underway.

The removal of Osborn to the new site is necessitated by the Miami Conservancy project, which condemned and purchased all property occupied by Osborn. Rather than give up its identity the village decided to move, and in order to save its charter, acquired a strip of land wide enough to conduct the removal on, from the old to the new site.

Approximately four months will be required for the work preparatory to the removal, it is said. A road will be constructed from the present site to the new location, which is more than a mile away and adjacent to

Fairfield, and the buildings will be hauled on regular house moving trucks over this road.

Before the removal work is started, contracts will have to be let and the work completed for the excavation of cellars and the erection of foundations in the new location. A contract will also be let for the installation of a water system.

It is expected that the contracts for the excavations and foundations will probably be let within the next four or five days and bids will be received on the installation of the water system, about the first of next year.

## NEW CLUB MAY PROMOTE LECTURES DURING WINTER

Arrangements for a series of lectures on current events by Mrs. Charlotte Reeve Conover, Dayton, well-known lecturer may be completed soon by the newly organized Business and Professional Women's Club of this city.

Possibility of the series of lectures being obtained for this city, now hinges on public sentiment regarding their presentation, according to the temporary officers of the new club. If it is found that there is sufficient interest to insure a sale of tickets for the lectures, the club will stage the affairs periodically in the auditorium of the Chamber of Commerce.

Mrs. Conover's lectures include thirty-minute talks on current events and a review of the new books. If her series is contracted for, her first lecture will be a discussion of the disarmament conference, the nations represented and what they want, and a review of Will Irwin's new book, "Our Next War." Five other similar programs will follow.

In order to obtain public sentiment on the lectures, people interested are asked to call Miss Elsie Canby, temporary corresponding secretary of the Business and Professional Women's Club, who will furnish information on the proposed lectures.

The new club will elect its permanent officers at an open meeting to be held at the Chamber of Commerce next Thursday evening. Prospective members present at that meeting who wish to join will be made charter members in the organization.

## DIES FOLLOWING BRIEF ILLNESS ON THURSDAY NIGHT

Following a brief illness of kidney and liver trouble, John H. Ervin, of Jamestown, former well known grain merchant, and more recently a local stock salesman, died at 11:30 Thursday night, at the Delaware Springs Sanatorium. He was taken ill a week ago.

Mr. Ervin was associated with D. B. John, of this city, as a Greene county representative of the R. L. Hollings Company, and for a number of years he was in the grain business in Xenia, and his death greatly shocked a large number of friends here. His death occurred on the twenty third anniversary of his marriage.

Mr. Ervin was a son of John M. and Martha C. Ervin, and he was born in Bloomington, Ind., April 1, 1873. His parents brought their family to Cedarville to live in 1879, and his home was at that place until 1895, when he and his brothers, Charles H. Ervin, and the late J. M. Ervin, went into the grain business in Xenia. He remained here until 1906, when he moved to Jamestown, and became associated in the grain business with his brother, C. H. Ervin, and R. G. George. Three years ago the business of the firm was sold to The Greene County Grain Company. Mr. Ervin then became interested in the stock and bond business, and became associated with the local representative of Th R. L. Hollings Company.

Surviving him and his widow, Mrs. Minnie S. Ervin, two sons, Ralph and Roger, a sister, Mrs. Jennie Ralston of Yellow Springs, and a brother, Charles H. Ervin, of this city.

He was a member of the United Presbyterian church in Jamestown. Funeral services will be held Monday, in charge of the Rev. L. L. Gray. Time of the funeral service will be announced later.

HEERFUL WILL HAYS SAYS: "COME ON BOYS, LET'S GO."

The total of postal revenues in September was 43 per cent greater than revenues of the same month a year ago, according to complete reports made available at the Postoffice Department. Postmaster General Hays, regarded as the cheer leader of business revival for the Harding Administration, hailed this as indicative of how far the Nation has pulled itself from economic depression.

"Postal revenues," said Mr. Hays, "are recognized as constituting one of the most accurate of the country's barometers of business. In September, 1920, the economic depression was beginning to appear at its blackest. The greatest period of expansion and prosperity ever experienced by the United States is in the future. Only a national calamity can interfere with expansion and then but delay it.

"The question that some want answered is, When is expansion or business revival going to begin? When shall we begin to feel it in increased sales, manufacturing output, foreign trade, increased production and the like—when? This is the question that some business men are going about asking themselves and their associates.

"The answer, of course, is this: Expansion and economic revival are beginning now. Progress will be accelerated in direct proportion to the faith all of us have in our future, in the future of trade and commerce and in the future of our business associates.

"It is true business still is like a very sick man in many phases—commercial shell-shock, extravagance born of war-worried practices and the like. But in some instances, unfortunately, it must be admitted that the patient is just playing sick. No one will deny that there are many difficulties in the path of the convalescent. He's in a fearful anxiety lest he take cold and develop a relapse of depression.

"Courage and confidence is gaining within the patient. Soon his will be evidenced, barring some great catastrophe in greater degree. Over-confidence then must be guarded against. But hat, just now, is another story.

"The patient is getting well. It is no time to warn 'Go slow,' rather, let us insist, 'Come on boys; let's go!'"

## PRESS FREEDOM UPHELD.

The City of Chicago, or rather that part of it represented by Mayor Thompson and "Thompsonism," has lost its suit against the Chicago Tribune. It was the contention of the city's attorneys that the Tribune and the Chicago Daily News had "libeled" Chicago in printing criticisms of the corporate acts of the municipality. Damages in the sum of \$10,000,000 were asked.

On the face of it the suit was brought to stop the mouths of Chicago newspapers in the future and to punish them for what they had done to the thing called "Thompsonism" in the past. In sustaining the demurrer filed by the Tribune, Judge Fisher pointed out that if the city's action was held maintainable.

then public officials have in their power one of the most effective instruments with which to intimidate the press and to silence their enemies. It is a weapon to be held over the head of every one who dares print or speak unfavorably of the men in power.

So ends a dangerous and insolent attempt by one of the most arrogant of political machines to maintain itself in power and to outlaw, crush and silence all possible effective criticism of itself and its acts. The ruling made was the expected ruling. Upholding the contentions of the city would have meant that no matter how corrupt, how dangerous or sinister any official might be, he would be able to use the powers of the municipality in hiding his crookedness and infirmities. With the taxpayers' money he could prosecute any taxpayer who publicly questioned his crookedness.

To accept any such doctrine would be to prepare the way for period of municipal corruption and debauchery that would smell to heaven. Extended to State and national Government, it would mean the end of popular government and a quick drift to self-perpetuating autocracies built on a lust for undisturbed and unending power.—Public Ledger.

## THIS IS THE TIME AND THE PLACE FOR STRIKE, SAYS ERIE PRESIDENT.

F. D. Underwood, president of the Erie Railroad, expressed his hope the strike would actually occur. "This is the time and the place for it," he declared, adding that the strike was one against the "umpire," or the United States Railroad Labor Board.

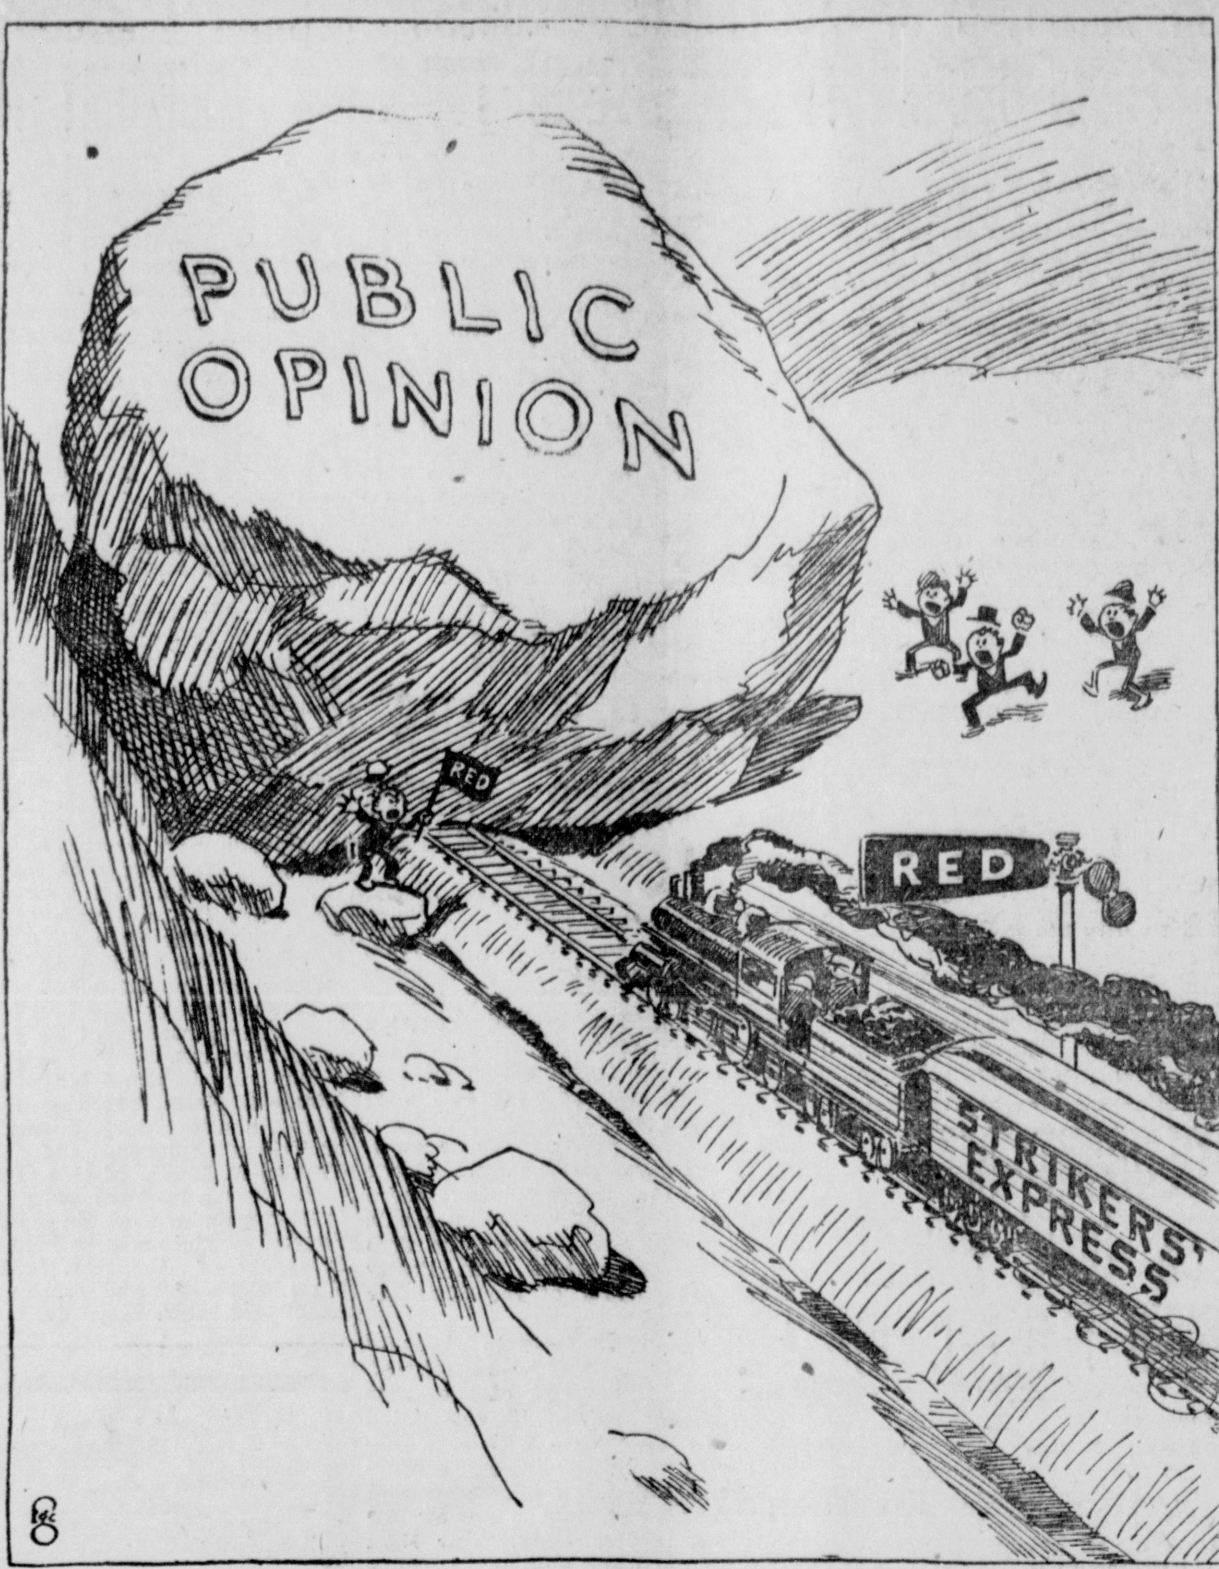

"It should be understood," said Mr. Underwood, "that the recent strike movement, analyzed, amounts to this: It is different from any other strike in that it is not directed against railroads, but against the verdict of a body constituted by Congress who, after a hearing, fixed wages, not at the instance of the interested parties, but founded on conditions developed by evidence.

"The real purpose is not appreciated by some of us. It is to bring about Government control. Railroad labor has the idea that under Government control they are better off. A leader of the railway conductors, when asked why his men preferred Government control, said, 'Because the conditions are better and the discipline not so sharp.'

"This is an interesting thing for the public—the users of the railroads, whose money pays the railroad employee. Their safety depends largely upon the discipline, which is not a thing to be trifled with.

"We are back at the old junction: Are a minority to starve and inconvenience their paymasters, the public, for the reason that board of umpires, on which they (the men) were represented, fail to suit their views?"

Mr. Zartman was driving north on Ludlow street accompanied by J. J. McDonald, Cincinnati; when two young bandits jump on the running board and demanded that he stop the machine. KEEP YOUR FACE YOUNG I'm sure a great many women allow their faces to grow old for lack of exercise. I know some of my readers will raise their eyebrows at this and wonder how on earth the face can be exercised.

Well—A smile is an exercise. A frown is an exercise—but I don't advise this! A look of surprise, the astonish opening of the eyes and arching of the brows, call muscles into play. Blowing out a candle is an exercise—laughing is a great exercise. Laugh hard this minute and watch the lifting and changing of the tiny muscles under the skin.

That's one way of exercising the face. Why do actors and actresses keep young? Emotions are stimulated, and exaggerated a trifle so as to get the "expressions across the footlights," the face becomes mobile—it stays young because it is exercised.

Think of the dull witted expressionless women that you know—do you think they are going to stay young in appearance very long? Thing of the jolliest woman you've met—don't you think her chances are a thousand to one of beating the others at the game of youth?

Don't be afraid of showing emotions on the face. It's good for the face and it "lets out" your personality. The repressed woman is not so attractive. And if you want to exercise the face still more cover it with cold cream to act as a lubricant and rub it with the palms of the hands until the skin glows from the friction.

Hortensia—Rub salt into the warts on hands and if they are large enough you can strangle them so they dry up and drop off. This is done by a piece of white silk, tied tightly around the base of the wart. Olive oil will help also, as it softens this skin, for that is all there is to such warts—merely dead particles of the skin that have congealed. Send a stamped addressed envelope for the eyebrow tonic.

Fatty—You should weigh about 110 pounds. Your proportions will be improved after you have completed your development.

"Only a man who has to work for a living knows what it means to get back on the job after not hitting a lick of work for a whole year. I am writing all my friends in other cities to tell them of the wonderful news.

The above statement was made by George B. Lowe, well-known employe of the Goodyear Tire and Rubber Co., living at 451 McGowan St., Akron, Ohio.

## THE JUGGERNAUT.

The motor car was built for pleasure, for making life a grand sweet song, and in that line it is a treasure, when drivers' heads aren't working wrong. When tooled with care and circumspection, and sanely driven to and fro, the auto is my first selection among the precious boons I know. If driven thus a car might travel for twenty years, and shed no blood, might squash no voter in the gravel, or plaster him with dark brown mud. If driven thus 'twould be no terror, no monster of the public ways, and tilting bards would make no error in handing it all kinds of praise. But few, so few, oh gentle reader, these homely truths can deeply feel; most every gent becomes a speeder when he is at the steering wheel. 'Most every guy will take some chances, and knock a rule or statute cold; and so his gaudy bus advances, with victims round the axles rolled. Oh, every hour provides a warning, and still the speeders do not mind; the death list's longer every morning, the coroner is miles behind. The surgeon and the learned physician are hourly patching some poor wight, the while the sad and pale mortician is planting jays by day and night. The motor car would be a blessing if tooled by drivers who are sane; but it is simply quite distressing to count the wounded and the slain.

### WILBERFORCE

Dr. Gilbert H. Jones, who is Dean of the College of Liberal Arts of Wilberforce University has had a call from the authorities of the Boston University Graduate School for his permission to allow them to translate his inaugural dissertation from German into English, for reference use in the classes in Philosophy. The book is a monograph in German of about 135 or 140 pages of print. It is titled "Lotze und Bowne, Eine Vergleichung Ihrer Philosophischen Ansichten." The book has worked its way through the universities of continental Europe and England, and into several of the universities of this country, among which is Harvard University, where the Boston University authorities discovered it. After having tried to borrow from Harvard for translation purposes and failed, they sought and found Dr. Jones at Wilberforce. Complete arrangements were made for the translation of the book, and original auto copies sent as a gift to the Boston University library. Dr. Jones is the first and only American Negro who has received a degree of Ph. D. from a European university. He received the doctorate in Philosophy from the University of Göttingen, Germany, after having spent about two and a half years in study at the University of Berlin, Leipzig, Göttingen, and Jena. He also visited the University of Paris for special studies under Poincaré. Dr. Jones is also the author of a book in education entitled Education

theory and practice," and a book in General Psychology. He is at present Dean of the College of Liberal Arts at Wilberforce University, where he has done a remarkable work in building up and standardizing the college department thereby gaining recognition for the university among the leading institutions in the country.

### Cedarville College Notes

The Sophomores enjoyed a spread at the home of Harper Bickett on Wednesday evening. One machine became homesick and in some mysterious manner found its way back to town. Otherwise nothing happened to mar the pleasure of the evening. The Freshmen, not to be outdone held a spread the following evening at the home of Pauline Collins. There was much excitement when a

few of the upper classmen appeared and relieved the freshmen of two gallons of ice cream. Unable to forego this delicacy, they sent one of their number to Yellow Springs to purchase some more. It is supposed that they doubted the wisdom of coming to Cedarville for more.

The national photographers from Columbus photographed the student body and faculty Monday morning.

The Cedarville football team will meet the Antioch players, Friday, Oct. 21, at 3 p. m. on the Antioch field. A good game is anticipated and a large crowd of Cedarville rooters will be present.

A number of the students motored to Columbus Saturday to see Ohio State defeat Minnesota.

The Bible Reading Contest will be held Nov. 22, at the R. P. Church. The entire oratory class will take part.

The Rev. Paul Duncan spoke in chapel Monday morning.

Union services were held at the U. P. Church on Sabbath evening. Rev. Warnack had charge of the services.

# Dinner Stories

Jim Jones returning home late one night was hit over the head by a tramp, then relieved of his watch

and chain and all his money. As he got up the tramp gave him back one of his own dollar bills.

"Here's for you, bo," he said. "My pals down the road, and if he meets you and you ain't got any money he might hurt you."

An English temperance enthusiast was giving a lecture on his pet subject, and, when well warmed up to his theme, someone asked him how he could account for the miracle of the turning of the water into wine.

His answer was given in all seriousness. It was as follows: "That," replied the lecturer, "was the one act performed by the Founder of the Christian religion which He ever after regretted."

"Are you going to take the children out today, Henry?" asked Mrs. Gotham.

"No, dear. I'm not. I'm going hunting," replied Mr. Gotham.

"Well, can't you take them hunting with you?"

"No; I'm afraid."

"Afraid of what?"

"Afraid I won't get what I'm going after if I take them. I'm going flat hunting."

"I believe in calling a spade a spade."

"I believe it is the best policy, myself. I once tried to pass one off for a club. That's how I got these two fingers shot off."

William Jennings Bryan tells this story of the most attentive auditor he ever acquired in all his experience of public speaking.

He was delivering an address up Minnesota way and soon noticed a man right down in front who was concentrating attention upon him in a most unusual way. The speech went on and on, but this fixed concentration never varied. It fascinated the speaker, gratified him. He spoke right to this man, acquitted himself rather better than usual because of his attentive inspiration.

When the address was over he came down from the platform, shook this man by the hand, thanked him for his evident appreciation and told him what a help it had been.

"I would like to ask," he said, "if it is not too personal, just what quality it was in my performance that held you so unwaveringly to it?"

"Well," said the stranger, "I have heard a great many speeches. I always go to all the speakings that are held 'round here. But you are the first man I ever heard speak whose back teeth I could see all the time."

An indignant critic of a certain action of congress rushed into the presence of Senator Lodge with the exclamation: "Why, senator, that is purely a matter of sentiment." The senator gazed at his caller for a moment, then handed him this significant reply: "Sentiment, did you say? True enough, but then you know sentiment rules the world."

### EXPECT OVER 300 AT COUNTY SUNDAY SCHOOL MEETING

An attendance which will number between 300 and 400 people is expected at the County Sunday School Convention to be held at the Second United Presbyterian Church, Tuesday, all day.

The meeting is one of the twelve divisional conventions that are being held all over Ohio under the auspices of the Ohio Sunday School Association, and the meeting is considered to be one of unusual importance.

L. B. Edgar, state superintendent of adult work, which the local convention will feature, will be a speaker at the Tuesday convention. He is from Columbus. Other speakers will include Ira S. Richmond, Montgomery county superintendent of Sunday Schools and a member of the state board and Mrs. Georgia Lee Young, Toledo division representative.

The first session will be open at nine o'clock in the morning, the second at 1:30 o'clock in the afternoon, and the third at 7:30 o'clock in the evening. The meetings will be in charge of Frank P. Hastings, county president of the Sunday School Association with supervision by the adult department.

Five delegates from each Sunday School in the county have been asked for, which would swell the attendance to between 300 and 400 people. Owing to the importance of sessions it is expected that this goal will be attained and those interested are looking forward to one of the biggest Sunday School meetings ever held in the county.

### COUNTY OFFICER WARNS PUBLIC

Issues Statement in Which He Says Conditions Here Can Be Relieved.

William C. Daniels, of 1219 York street, Newport, Ky., county patrolman of Campbell county, is another prominent man who recommends Peppen for the good it has done him. In a recent interview, Mr. Daniels stated:

"I am glad to speak a good word for Peppen. For the last two years or more I have been troubled with my stomach and kidneys. The worst thing about it was the pains that came in my back as a result of the kidney trouble.

"I was in a drug store one day and the proprietor, who is a friend of mine, told me about Peppen. He said he was selling a great deal of Peppen and that everybody who bought the preparation seemed to be highly pleased with the results they derived. "Well, as a result of this conversation, I started taking Peppen myself. This medicine has given me relief from my trouble. I'm sure glad to recommend Peppen to others."

Peppen is a natural medicine, made from roots, barks and herbs. It is specially intended to relieve the common ailments of the day such as ills of the stomach, liver, kidneys and nerves. Peppen is endorsed by judges, ministers, newspaper men, doctors and many other prominent people.

Peppen is now being specially introduced at Sayre & Hemphill's.

### Nervous People

### PEPTO-MANGAN KEEPS BLOOD PURE

Growing Children Need Plenty of Red Cells In Blood

When the young body is growing, children frequently experience weakness. Girls and boys sometimes play too hard and over-tax their systems. They lose their appetites, become languid, and are not able to make progress in school work. "Growing too fast" is often true. It is most important to keep the blood of growing girls and boys in a healthy state.

Pepto-Mangan keeps the blood pure. The red cells in the blood are increased. They carry life-giving oxygen to all parts of the body, and wholesome youthfulness blooms again in clear complexions, bright eyes and buoyant spirits. Sold both in liquid and tablet form by druggists everywhere. The name "Gude's Pepto-Mangan" is on the package. adv

A can of Calumet Baking Powder will make more pies, cakes, biscuits, muffins, etc. than a can of most other brands.

It lasts longer—goes farther because it contains more than the ordinary leavening strength—therefore you use less.

When a recipe calls for two teaspoons of baking powder, use two level teaspoons of Calumet, the results will always be the same—perfectly raised bakings—remember this when you buy baking powder and don't forget that Calumet is the economic buy because it goes farther.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

## HEALTH IS A WOMAN'S GREAT-EST ASSET

Contrast the cheerful happy woman with head erect, the glow of health on her cheeks, the elastic step and bubbling enthusiasm as she goes about her daily tasks, with the woman who suffers from backache, headaches, dragging-down pains, nervousness and despondency. Such conditions are undoubtedly caused by woman's ailments which will yield to Lydia E. Pinkham's Vegetable Compound, which for many years has been restoring weak, ailing women to health and strength. Every woman who suffers in this way owes it to herself to at least give it a trial.

## NATIONAL VICTORY BUILDING WILL BE EDUCATIONAL PLACE

Mrs. A. C. Messenger and Mrs. H. H. Cherry attended a luncheon given at the Dayton City Club, Wednesday by Mrs. Valentine Winters, Chairman for Montgomery County for the National Victory Memorial Building Fund, assisted by the women of the D. A. R., and her committee. Mrs. Henry Dimock, National President of the George Washington Memorial Association and Mrs. J. B. Foraker of Cincinnati, State Chairman of the National Victory Memorial Building Fund, were the honored guests. Both women gave interesting addresses about the National Victory Memorial Building.

Mrs. Dimock's address told of the educational point of view as the walls will be covered with pictures of note and there will be a splendid library opened to the public. She impressed her audience with the fact that the building should not be erected by a few, but that every citizen should want to contribute to this building, to feel that they had a part in erecting such a memorial to our "boys" who fought for our liberty.

The corner-stone for the new building will be laid on Armistice Day, Nov. 11, President Harding will have charge of this part of the service.

Mrs. Dimock said that the National Commander of the American Legion was in full sympathy with

## MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers—Meat forms uric acid.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or side, headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

the work, and hoped to see every Post endorse the work, which is being done for them. They cannot afford to do otherwise. And those who are not in sympathy with the work do not realize what a wonderful structure it will be to our Nation as a meeting place for all conferences and conventions. Mrs. Dimock said that George Washington had provided in his will an amount to be used as a nucleus for a fund for the erection of a building for the education of our nation, and that was why the George Washington Memorial Association was started to carry out Washington's idea. And now when this building is completed, it will bring the people into closer touch as one common people. And will be a lasting tribute to our brave men of our country as well as to the women who aided in the war work.

## Efficient Housekeeping

### READERS' DISCOVERIES

Mrs. C.: "I bought one-half peck of crabapples to make jelly with and, after boiling them till tender in water to cover (cut up, of course,) I strained the juice through my jelly bag then tried the experiment of adding almost 1 quart of water to it; I then proceeded to boil it up with an equal amount of sugar and got 17 regulation sized jelly glasses out of it. I thought other housewives might like to hear about how I 'stretched' the juice in this way."

Mrs. X.: "When my husband re-furnished his business office recently he gave me an old, scratched stenographer's swivel chair. I use it in my sewing room. I can now whirl easily from sewing machine to cutting table."

G. A. C.: "Here is the way I make pretty hemstitched window curtains and bureau scarfs: I buy cream-colored scrim, make an inch-and-a-half deep hem along the selvedge, then draw the threads for hemstitching at the foot of this hem. But instead of doing the hemstitching myself, I save time and obtain a firmer and more durable result by having the hem-

stitching done on a hemstitching machine at a neetwork shop (this costs about 15c for every yard). When done in this way, the curtains appear to be hand-hemstitched."

May D.: "In this day of beaded apparel and accessories, other women may like to know how I string beads too fine for a needle. I dip the end of the silk thread in mucilage and let it dry into a sharp point. The beads can then be strung directly on the thread."

A Mother: "I wash my little girl's hair ribbons in the following way: I spread them out on a table and scrub them with soap suds to which I have added a little ammonia, then I rinse them in clear water and spread them smooth on a sunny window or on a mirror with the wrong side next the glass. If ribbons are ironed they become stiff, but if done in this way they are as soft as when new."

Young Housewife: "I am a young married woman and like to entertain our other married friends. We all try to outdo the others in originality and this is what I 'sprung' at my last little guest supper; I took seasoned mashed potato and formed it into balls then with a teaspoon I made a hole in one side of each ball. Into the hole I put 1 teaspoon of the following mixture: Mix together 1 cup grated cheese, 1-4 teaspoon salt, a drop or two of Worcestershire sauce and 1 tablespoon of chopped pimientos or red pepper. (One could add chopped fried bacon, too.) When I had put these seasonings into each potato ball, I smoothed a layer of potato over the holes, then fried the balls in hot, deep fat with a frying basket. My guests thought my idea a good one. They were surprised when they broke into their potatoes."

Home Nurse: "My mother is an invalid and I find that when I put toast on her tray cut in strips or 'fingers' instead of in large pieces, she handles it more easily besides enjoying it more because of its daintier appearance. Also she sometimes eats more because she does not know when she has had one whole piece. I am sending you this postal containing my 'discovery,' in return for the many recipes you have sent me."

People of the city and all organizations will be asked to display their service flags during the days of the campaign, to keep the work before the minds of the people. Meetings will be held over the county during the campaign, and people familiar with the work such as Miss Helen Evers, Red Cross nurse, Miss Louise Shaffer, Red Cross secretary, and Mrs. Faulkner will make short talks outlining the meaning of the Red Cross, the use of its funds and the results obtained.

## THE NEW GENERATION

By Jane Phelps

### JOAN SCORES CHAPTER 69

Margaret and Joan spent a pleasant evening in spite of the mother's uneasiness because of Joan's change of plans. It was too late now for her to interfere with this self-contained daughter who had had her own way ever since she was born. That she was more difficult than ever before, Margaret acknowledged, and also that she was more and more uncertain as to the best way to handle her—without Joan being aware she was being guided.

"I bought a dress that is a bit tight. I wonder if it would do for you," Margaret said. In spite of her radical notions Joan was a real woman in her liking for pretty stylish clothes.

The dress fitted perfectly. A semi-evening gown suitable for dinners or the theater. Just the sort of a gown a well-dressed girl finds useful.

"Thank you, Mumsie! It's lovely," Margaret had wrapped it carefully in tissue paper.

"Now I'll call a cab. It is late for you to go either alone, or on the car, or to take a street taxi." And in spite of Joan's laughing protestation that she was old enough to take care of herself, Margaret ordered a cab from a reliable garage.

"I'll come over my tomorrow to take you to see my studio," Joan said.

"No, dear. Make it the day after. I shall be busy tomorrow." She must not make it too easy for Joan, must not let her think she could again rule her mother's comings and goings.

Margaret watched from the window until the cab disappeared. Then she turned to her dressing table and the note Craig Forrester had left.

"The new generation scored this evening. When will it be my turn?"

Margaret laughed softly as she read the short, pregnant message. When indeed? The quiet evening spent with Joan, the calling her

"Mumsie," the mother love, all were working against him. "Oh, Craig, you don't understand!" as whimsically she added: "You never have been a mother Craig—a mother to Joan."

It is all very well to judge a person to say you have no sympathy with her, and that if she is unhappy it is her own doing. It is the easy and the obvious thing to do, and it leaves you well satisfied because you've taken a fine and an unassailable position. But after all are things quite as simple as that in real life.

Margaret had started with Joan filled with resentment at her own inhibited life. If she had made a mistake, she needed sympathy, not criticism. But strange to relate she was not yet persuaded that she had made a mistake.

"If I had my life to live over I should do the same again," she said hugging close her theory that human beings had a right to self-expression, no matter what the consequences.

There was nothing for it but to be patient. Yet as Margaret read Craig Forrester's note she wondered if patience would help her. If even she could overcome Joan's dislike to her marrying, Craig would not have tired of waiting. She was no longer young in years, and he was older. If he ever was to marry to have a home he would want it soon.

Margaret never wanted anything as she now wanted Joan's happiness and her own. She wanted Joan to know she was to be relied upon always, to be sure that she would never fail her. And yet—how she also longed for her own little bit of silver lining. Joan was difficult, but her heart was right. Margaret recalled how wistfully she had regarded her when the time came to go. How she had returned her embrace, then stood for a moment biting her lips to still its quivering, then shook her bright golden curls and hurried away.

"The darling! She's nothing but a child for all her independence," Margaret exclaimed a smile curving her lips.

"She wanted to be more loving, and wouldn't let herself." Before she slept Joan's mother answered Craig Forrester's note: "Thank you for the flowers, they make my room lovely. Your turn, must wait I am afraid. The new generation must be appeased."

Tomorrow—Joan Takes a Studio in the Village.

## CLEAN SWEEP MADE BY BANDIT GANG

Elyria, O., Oct. 20—Practically all places of business in Grafton, seven miles from here were burglarized during the night. No accurate estimate of the loot secured was available this afternoon.

The Big Four, Baltimore and Ohio and Cleveland, Columbus and Southwestern electric company depots were robbed. The Big Four depot safe was blown and \$25.53 secured. The postmaster this afternoon had not completed his inventory to ascertain the loot secured from the government. Money and stamps are missing. At Ruders hardware store \$25, two revolvers and a safety razor were unaccounted for. No estimate has been made of the loot secured from the Deering meat market and the German and Ketches general store.

Every place of business in the village was either entered or attempts made to enter.

Sheriff Backus and deputies returned to Elyria this afternoon after thorough probe in connection with which many finger prints found in the burglarized places were photographed. Work was started in an effort to identify the finger prints. That the burglars were professional criminals is the belief of county officials.
